Telemedicine Solution

Max DHIMS
Dental Hospital Information Management System
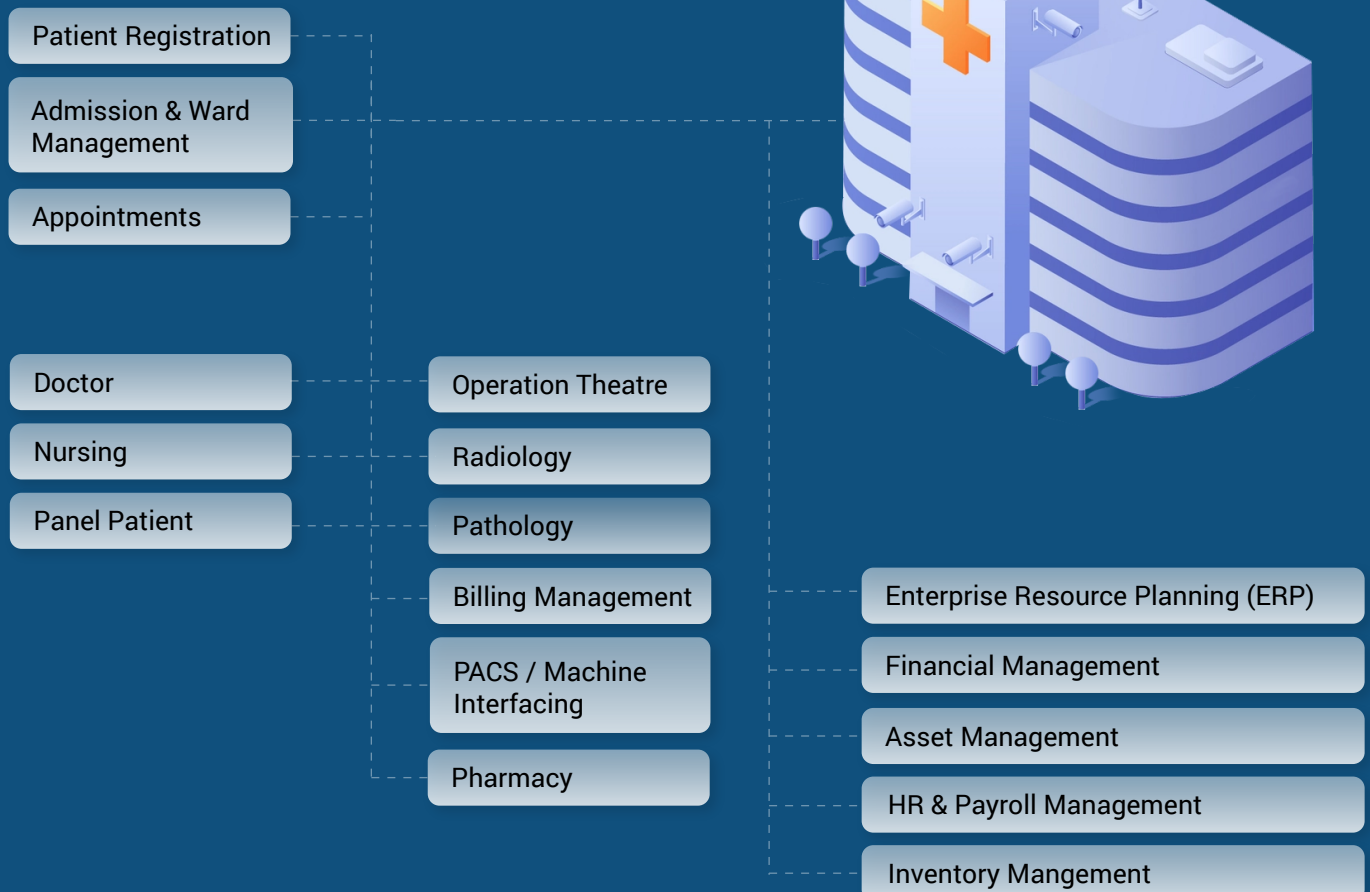

Max CLINICS
Clinical Management System

Introduction

Max Technologies provides **Hospital, Clinic and Healthcare Institutes** with technology solutions that help them deliver improved services to their patients, secure their data, and enhance operational efficiency. We equip hospitals, clinics, and administrative staff with technology and processes that provide real-time access to patient data (medical records, lab results, medications) and operational insights, especially during critical-care.

Max Technologies helps hospitals and clinics digitize their paper medical files, automate patient onboarding processes, collect invoices, and manage communications.
