Max Performance

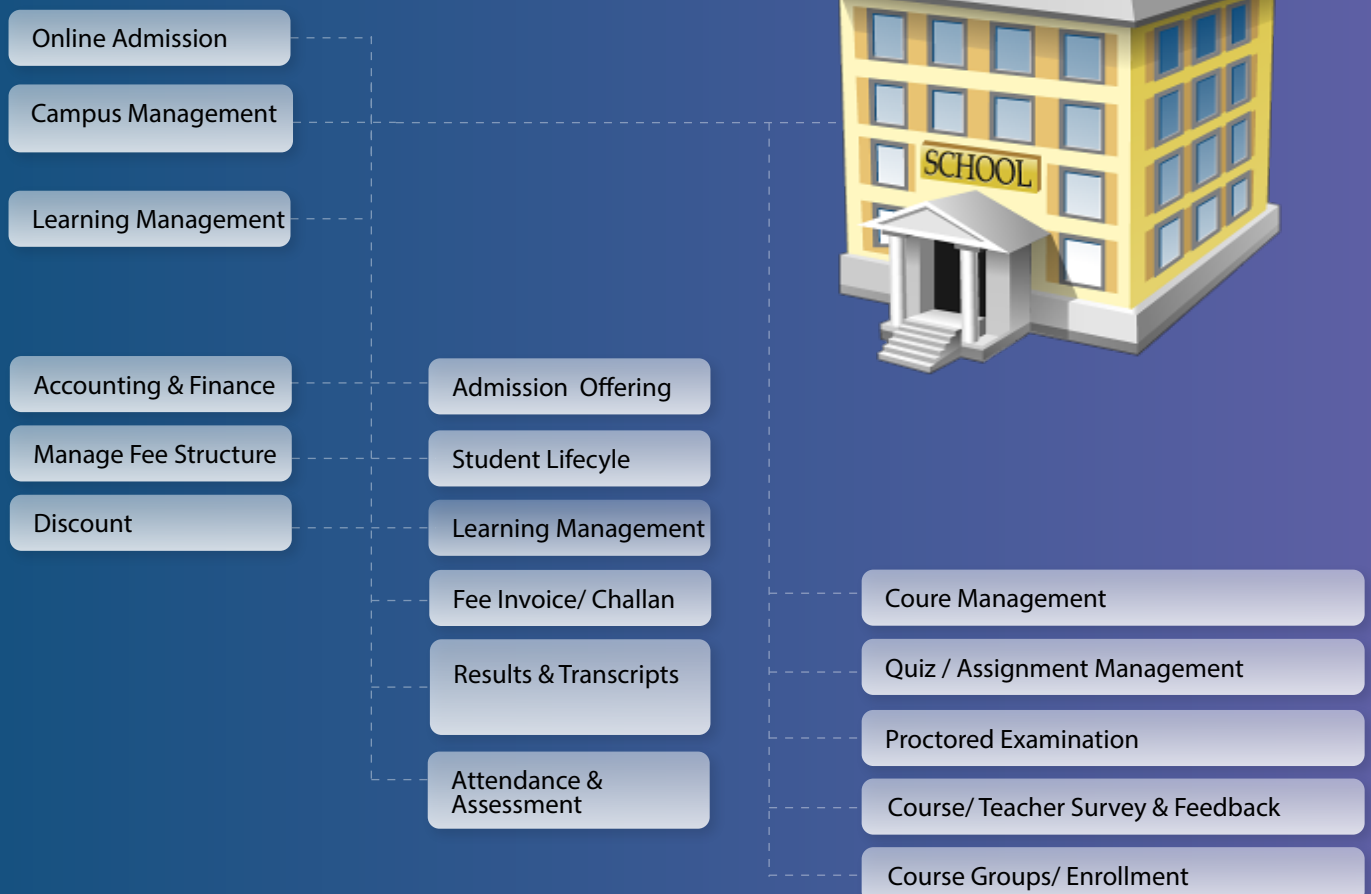

Performance Management System

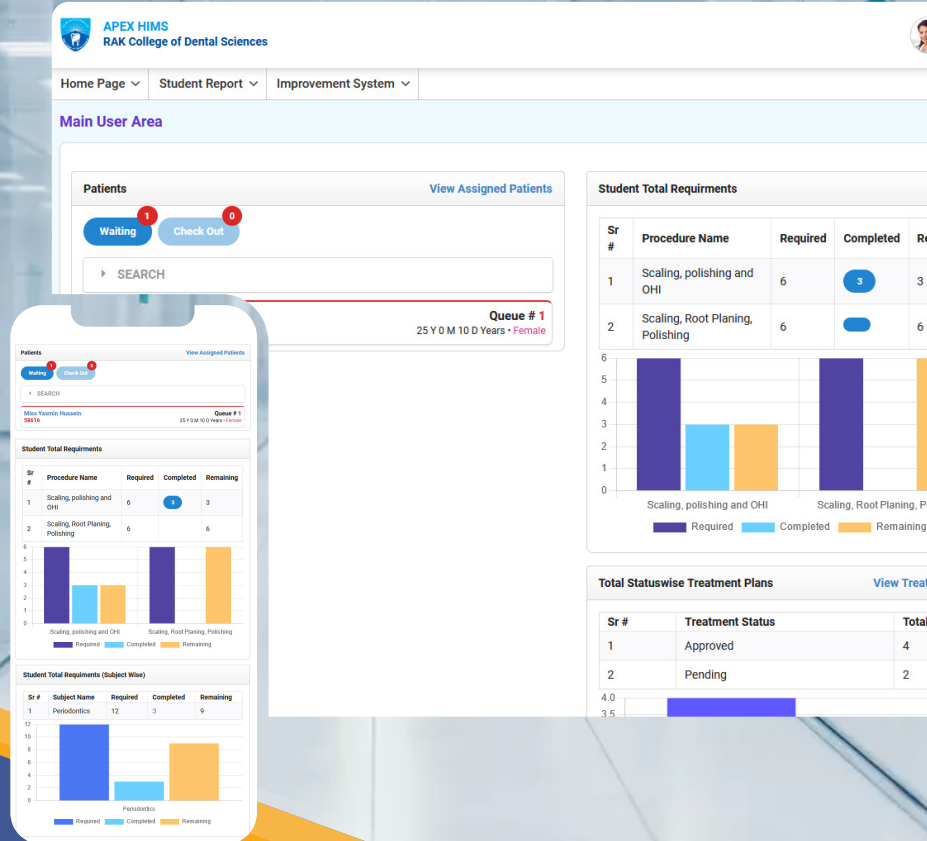

Introduction

Max Technologies provides University, Colleges and Schools with custom technology solutions that help them give better services to their administration, student, faculty, secure their data, and improve operational efficiency. We equip university, college and administrative staff with technology and processes that provide real-time rapid access to students' data (academic records, results, course offering, and so on) and operational insides, especially in critical moments.

Max Technologies can help university, colleges and students digitize their paper student files, automate the student onboarding process, process fees, and manage communications, among other things.

Executive Dashboard & BI Reporting

Why Max Education 360 ?
